Description

The foam layer absorbs unevenness in the surface, helping to maintain an excellent cutting action providing a very homogenous, high quality finish.

Features & Benefits

Polish in spot repair applications faster thanks to the uniform cut, smooth finish and lower scratch depth

The open mesh foam backing moulds to the surface for even distribution of pressure for consistent finish

The mesh foam is waterproof, making the disc washable and reusable, can also be used by hand

Colour coded discs make grit identification possible at-a-glance
